Skills

React-Native
React.js
HTML
CSS
C++
Java
Python
Javascript
Machine Learning

Education

Babu Banarasi Das University (BBDU) Lucknow

2019 - Present

B.Tech-Computer Science

Academic Heights Public School

2016 - 2018

Other Qualification-PCM

Experience

APTRON-Trainee

2022 - 2022

Learning about Basic Python and algorithms in Machine Learning. Worked with libraries MATPLOTLIB PANDAS NUMPY SKLEARN TKINTER OS.

Developed a project on Sonar Prediction

Project

Live Weather of any city worldwide

[ReactJs CSS]

Frontend & API Integration

Fetching data from openweathermap.org API

Get detail on any place 1) Temperature 2) Sunset 3) Humidity 4) Pressure 5) Wind speed 6) Mood of weather

Deployed on Heroku

Portfolio with 3D hamburger menu

[HTML CSS JavaScript]

Responsive Website with multiple pages

1) Home 2) Skills 3) Experience 4) Projects 5) Contact

Download CV button available

Hosted on AWS & data being fetch from github API for Projects pages

Sonar Prediction using Machine Learning

[Scikitlearn Pandas Matplotlib]

Logistic Regression Algorithm

Model Training & Evaluation

Predicted ROCK/MINE with accuracy 87%

Made Predictive System with Tkinter (GUI)

Achievements

Got a scholarship in the second year of my graduation.
